In point of style-conception, in advancement in the manufacture of intricate weaves and the introduction of a higher character of designs, each season succeeds the old one.

The arrival of spring goods emphasizes the fact at this time. Last spring it was the consensus of opinion that the merchandise which we exhibited was the finest shown in the Western country, of a magnificence equal to the displays offered by leading New York, Philadelphia and Chicago institutions. We believe the varied lines now arriving excel even the effects of the previous spring.

Marriage unites a loving pair,
To give them a blessing up there—
Still eyed rather, than miss a mating—

Purple Luncheons For the Penitential Season

...of the fact that we are all "miserable sinners" and at this penitential season are ready to acknowledge our misdoings, these luncheons are not so frivolous as you might think the world and all its vanities well lost even for a day. Many of us, according to lights, find the greatest spiritual when near to nature's heart, and Lenten lessons and physical health are often gained by the sea or amidst the pines.

...eru foundation. A low bed of double violets or pale violet hyacinths, if the fragrance of these last named blossoms are not too oppressive, are the flowers employed in this scheme. In a circle around the centerpiece of this penitential board is a row of cut glass candleabra having violet colored shades. Lenten issues of magazines which are full of illustrations, showing pretty girls with cowls drawn over smart coiffures that pictorially say farewell to the world, the flesh and the devil, are an aid in the making of the place cards. These designs are transferred, traced or copied upon water color paper and appropriately tinted and when well done are wonderfully cheap and effective little cards. The corsage bouquet placed at each cover is of double violets tied with pale purple ribbon. If one

general decorative scheme, with its hint of a shell and the sea carried throughout the table arrangements and menu. The pinkish lavender cosmos flowers for the centerpiece were arranged in a china dish fluted like the outer edge of a shell. The little candy boxes were exquisitely dainty affairs of rough white drawing paper trimmed with pressed seaweed sprays. Hand painted name cards showed marine views, mostly Dutch scenes with a purplish haze very noticeable in the lights over dikes and meadows. A fish net over green, shimmering fabric was lightly draped on the table, held up at the corners with pieces of coral reef.

Some hostesses are reviving the old fashion of arranging their flowers on a centerpiece of looking glass, a long strip of glass being used, with the edges fluted by trails of smilax or foliage of that nature. A great bank of violets is often placed down the center of the glass, with other simple flowers, such as narcissuses or daffodils, arranged at the top as if growing.

A favorite book is a delightful centerpiece from which a charming Lenten luncheon may be designed. The special features of a book luncheon will depend upon the work chosen and most successful when the individual fancy of the hostess is exercised. The general idea is capable of infinite variations as any well known book classic or modern may be chosen, but the popular novels of the hour are the ones generally selected for the purpose. For instance, "The Heart of Hyacinth," the new novel written by that very talented young Japanese authoress Otono Watanna would suggest in the way of costumes and decorations a charmingly oriental luncheon.

As to the menu for the purple Lenten feast, no meat, of course, is served, but with terrapin, lobster, oysters and other fish delicacies to choose from the abstinence is not penance by any means.

When the menu is to be prepared at home and too elaborate entrees are not

universally liked. Little lobster salads are appetizing when made from the following formula. Put a little chopped parsley and horseradish in the bottom of individual ramekin cases, paper or china, and on these place some heated lobster meat covered with mayonnaise. Garnish with a few capers and place a curled anchovy in the center of each salad.

Chicken creams in cases are a delicious little dainty. Mince the quantity of cooked chicken you are likely to need and pound in a mortar with a sauce made of equal quantities of good real broth and cream seasoned with celery salt, pepper and a little nutmeg. When thoroughly pounded pass the chicken through a sieve. Mix with mayonnaise some cooked vegetables and partly fill with it little lute shaped boxes which have been lined with aspic jelly; then place the chicken creams on top of each filled case.

Supe a la Bohemienne is a most attractive luncheon dainty. To prepare the filling for the birds cut four ounces of game or poultry liver into slices and cook it slowly with three ounces of bacon, half an ounce of butter and a little parsley and onion until these ingredients are tender. Turn the contents of the pan into a mortar and pound until a smooth paste is formed. While pounding moisten the mixture by degrees with a tablespoonful of thick white sauce, half the quantity of tomato catchup and the yolk of a raw egg. Season with salt, black and cayenne pepper. After passing through a sieve fill the birds with the compound and place them in a buttered baking pan after pouring over them a wing-glass of chablis. Cover the birds with buttered paper and cook in a moderate quick oven for fifteen minutes. When ready to serve place each bird on a crouton of fried bread. Garnish with water cress and serve accompanied with a rich brown sauce.

Good Things For the Lenten Table

GRILLED SARDINES—Drain the oil from a box of sardines, and when the skillet is hot lift each little fish with the blade of a knife carefully into it. Sauté the sardines slightly, turning carefully, and sprinkle over each a drop of lemon juice. Serve them on small squares of toasted bread or sandwich style, between crackers.

Cream of Cod Soup.—Remove the skin and bone from one cup of cold cooked cod or any white fish, chop it fine, put into a double boiler one quart of milk, one sprig of parsley and one slice of onion. Cook ten minutes. Into the frying pan put two level teaspoonfuls of butter, and when melted add two tablespoonfuls of flour. Stir till smooth, remove the onion and parsley from the milk and add the milk to the butter and flour, stir until it boils and thickens, and then add the codfish. Rub through a fine strainer and serve.

Creamed Eggs.—Boil four eggs twenty minutes, then put them into cold water for five minutes. Make a white sauce with two level teaspoonfuls of flour and butter, adding gradually one and a half to two level teaspoonfuls of milk. Put on the fire and stir until it boils. Then add one-fourth teaspoonful of salt and a little pepper. Toast slices of bread and butter them. After removing the shell from the eggs cut them crosswise, taking out the yolk, cut the whites in rings and mix them with the sauce. Pour this over the toast and rub the yolks through a strainer over all.

Rice and Cheese Croquettes.—To one cupful of cold boiled rice add half a cupful of cheese, one beaten egg, salt and pepper to taste. Heat long enough to cook the egg. Heat long enough on a platter, and when cold divide into portions. Form into croquettes, roll in bread crumbs and egg and again in bread crumbs. Fry in smoking hot lard. When brown, drain on paper, arrange on a folded napkin and serve with tomato sauce.

Salmon Cakes.—One can of salmon flaked fine, one cup of milk, one egg, pepper and salt to season, add bread crumbs to thicken, form into cakes and fry in butter.

A Tasty Breakfast Dish.—Boil two eggs twelve minutes, take them out of the saucepan and put them at once into cold water; leave them till cool.

Remove shells, dry them with a little flour, cover each with sausage meat, egg and bread crumbs.

Fry in boiling fat till a nice brown, cut each egg carefully in half and then serve in a dish with good brown gravy.

When cleaning wall paper use a little dough made of flour mixed with a little washing soda. The soda will not spoil the paper, and the work will be done more rapidly.
